CAREER OBJECTIVE

Final-semester CSE student at AIUB (CGPA 3.83/4.00) with hands-on experience building web applications and RESTful APIs using ASP.NET Core, Node.js, and NestJS. Proficient in JavaScript (ES6), TypeScript, and C#. Passionate about backend architecture and scalable systems, and eager to contribute creativity and engineering discipline to a growth-oriented team

ACADEMIC PROJECTS

- **FinTrack — A Personal Finance Tracker**
Developed a web-based personal finance tracker using HTML, CSS, JavaScript, PHP, and MySQL, allowing users to record income, track expenses, and manage their overall spending.
[GitHub: https://github.com/KHR47/FinTrack](https://github.com/KHR47/FinTrack)
- **AirSense — Air Quality Monitoring Web Application**
Developed a full-stack web application using HTML, CSS, JavaScript, PHP, and MySQL that lets users view and track AQI data for different cities through an interactive interface.
[GitHub: https://github.com/KHR47/AirSense](https://github.com/KHR47/AirSense)
- **ShopCore — E-Commerce Backend System**
Developed a RESTful backend API for an e-commerce platform using ASP.NET Core Web API, supporting product management and order handling. Tested and verified API endpoints using Postman to ensure proper functionality and performance.
[GitHub: https://github.com/KHR47/ShopCore](https://github.com/KHR47/ShopCore)
- **Library Management System**
Developed using C# and Microsoft SQL Server. Allows admin to manage books, students and borrow/return records. Features include student profiles, issue or return book tracking, and notifications.
[GitHub: https://github.com/KHR47/TourEase](https://github.com/KHR47/TourEase)
- **The Markentile - An Online Shopping Hub**
Built a Java Swing desktop app that works like an online supermarket. Users can easily browse and buy groceries, food, and skincare products through a simple interface. It demonstrates basic shopping features along with Java GUI and object-oriented programming concepts.
[GitHub: https://github.com/KHR47/The-Markentile](https://github.com/KHR47/The-Markentile)
- **TourEase — A Tourist Management Database System**
TourEase is a database project built using SQL to manage travel-related information in an organized way. It stores and handles data like tourists, bookings, hotels, and payments using a structured database system.
[GitHub: https://github.com/KHR47/TourEase](https://github.com/KHR47/TourEase)

- **NikunjaScape — A Computer Graphics Simulation**

A computer graphics simulation built using C++ with OpenGL and GLUT. It creates a realistic view of Nikunja 1 & 2 with roads, buildings, vehicles, and simple animations like moving traffic and day/night changes.

GitHub: <https://github.com/KHR47/NikunjaScape>

- **PyCart — Console-Based E-Commerce System**

Built a modular console-based e-commerce system in Python with a FastAPI backend to manage products, customers, and orders through CRUD operations.

GitHub: <https://github.com/KHR47/PyCart>

- **TextGuard — AI Content Detection System**

Developed an NLP-based system using Python and transformer models (BERT and RoBERTa) to detect whether text is human-written or AI-generated

GitHub: <https://github.com/KHR47/TextGuard>

EDUCATIONAL QUALIFICATIONS

Bachelor of Science (B.Sc.) in Computer Science & Engineering

2022-2026

American International University - Bangladesh (AIUB)

CGPA: (3.84 out of 4.00)

Higher Secondary Certificate (HSC)

2020

Rajshahi New Govt. Degree College, Rajshahi

GPA: 5.00 (out of 5.00)

Secondary School Certificate (SSC)

2018

Rajshahi Collegiate School, Rajshahi

GPA: 5.00 (out of 5.00)

SKILLS

- **Languages** > HTML, CSS, JavaScript (ES6), TypeScript, Python, C#, PHP, Java, C++
- **Backend** > Node.js, NestJS, ASP.NET Core
- **Databases** > MySQL, MS SQL Server, PostgreSQL
- **Tools** > Git, GitHub, Postman
- **Networking** > Cisco Packet Tracer
